

Amanda Cavness
FIP YPG Chairperson of Projects 2022

My name is Amanda Cavness and I am a Clinical Pharmacy Specialist in pediatric hematology and oncology at Children’s Hospital of The King’s Daughters (CHKD) in Virginia. I am a proud native of Tennessee. I received my Bachelor of Science degree from the University of Memphis and my Doctor of Pharmacy from the University of Tennessee Health Science Center College of Pharmacy. I traveled to Virginia to complete my first year of residency at CHKD, and then continued on to the nation’s capital to complete my second year of residency at Children’s National Medical Center in Washington, DC. I earned Board Certification in Pediatric Pharmacotherapy in 2020.

As a student pharmacist, I learned about pharmacy’s role in global health through service with American Pharmacists Association-Academy of Student Pharmacists and IPSF. I was able to serve as an Official Delegate at 2015 IPSF World Congress and was part of the IPSF delegation to the 2017 World Health Assembly. These experiences fueled my passion for expanding the roles of pharmacists globally.

I am excited to serve as your Chairperson of Projects this year! I hope to engage many new young pharmacists and pharmaceutical scientists with YPG and continue to broaden the impact we have on healthcare around the globe.
