

Clément Haeck

FIP ECPG Chairperson of Liaisons 2023

My name is Clément Haeck. I am an industrial pharmacist and pharmaceutical scientist working in formulation research and development (R&D) in New York City, USA. I hold a Ph.D. in Pharmaceutical Sciences and Drug Delivery from the UK in addition to a Pharm.D. and an M.Sc. from France. I completed internships in pharmaceutical industries in Germany and the Netherlands, as well as hospital and research placements in France.

I have been an active member of the Young Pharmacists Group (YPG), now Early Career Pharmaceutical Group (ECPG), of the International Pharmaceutical Federation (FIP) since 2017. Throughout the years, I have served FIP YPG as Liaison to the Drug Delivery and Manufacturing SIG of the Board of Pharmaceutical Sciences, Twitter Manager, and Publications team member. I was fortunate to win the FIP Industrial Pharmacy Section (IPS) Scientific Poster Award and attended the 77th FIP World Congress in 2017, in Seoul, South Korea.

As Chairperson of Liaisons 2023, I want to increase ECPG involvement in all sections and Special Interest Groups (SIGs) of FIP. Thanks to my past experience as a liaison, and my involvement in submitting session proposals for FIP congresses through the collaboration with different sections and SIGs, I want to engage more all liaisons to ensure the voice of early career pharmacists are represented throughout FIP.

I am both humble and proud to be the first French pharmacist to be part of the young pharmacists group or ECPG Steering Committee of FIP, and I hope to motivate more young pharmacists or pharmaceutical scientists from diverse countries and backgrounds to represent us all on the global stage in the future.

I look forward to working with you all.

*Viva la FIP-ECPG, viva la Pharmacie!*

Clément
