Hi Igor:

Please see attached my updated CV. I started to work on Aug 28 as VP of Operations & Development at Revive Biotechnology, Champaign, IL.

If elected, I would like to continue my work on webinars. I am available for other roles as well. My plans to expand the scope of webinars is as below;

- 1) Give wider publicity for the webinars in more number of social media
- 2) Offer live translations in Mandarin, Portuguese, Spanish and French for all webinars, and have all the translations recorded . Currently only the English version is recorded.
- 3) Give wide publicity about the availability of the translations in countries where the above languages are spoken
- 4) Solicit funding for the translations from major pharmaceutical houses like GSK, Pfizer, Astra-Zeneca, AbbVie, in return displaying their logos on the opening slide of the webinar presentation. This will be done with prior approval of FIP.
- 5) Recognize the two best webinars of the year at the annual meeting of FIP.

Thanks, Mathew

Dear Mathew, hello!

Are you planning to apply to another term as ExCo? Our elections are happening this month and I need to send the candidates applications to Paula, so she uploads to IPS website and members can access the candidates data beforehand. The ballot shall occur 24-48hs before the virtual assembly, so we can announce the results during the meeting.

If you planning to apply, please revert to me with a brief email / letter of intentions and updated CV.

Best regards

Igor
